Time: Two Hours   **Maximum Marks: 50**

Answer all the Questions
PART A (5 x 10 = 50 Marks)
(Answer not more than 500 words)

1.	Explain the concept of Self-Exploration as a method for achieving a holistic understanding of oneself, and illustrate how Natural Acceptance plays a role in this process. Provide a practical example of how you would apply these concepts in your everyday decision-making.	10	CO1	[K$_3$]
2.	Analyze the relationship between the 'I' (Self) and the Body. Discuss how understanding this relationship can help maintain physical and mental well-being. Use real-life scenarios to support your analysis, explaining the importance of Sanyam (self-regulation) in daily life.	10	CO2	[K$_4$]
3.	Evaluate the significance of Trust and Respect as foundational values in human relationships. Critically assess how differentiating between intention and competence impacts trust-building. Provide examples to demonstrate how these values can resolve conflicts in professional and personal settings.	10	CO3	[K$_5$]
4.	Discuss the interconnectedness and mutual fulfillment among the four orders of nature. Analyze the role of human activities in disturbing this balance and suggest	10	CO4	[K$_4$]

effective measures to mitigate these impacts. Use relevant case studies or examples to highlight your points.

5. Evaluate the importance of Humanistic Education in shaping professional ethics. Discuss how ethical human conduct can be promoted in engineering practices. Assess the challenges and strategies for transitioning to a Universal Human Order, focusing on the roles of individuals and society. 10 CO5 [K$_5$]
